PRESS RELEASE

November 2, 2020

Disc Golf Course Redesign

McPherson - The City of McPherson Parks Department has released the latest plans for a renovated disc golf course redesign and is asking for community feedback.

The new layout will be in the same general area as the existing course, but will add increased hole-length, professional signage, new tee pads, and will utilize the entire Lakeside Park area among other changes. The course is being designed by park staff.

The original 9-hole course was designed in the 1990's. The new 18-hole disc course layout will come with nine new baskets and include a large Info Board showing the course layout, rules, and guidelines. All the new equipment will come with sponsorship opportunities. The proposed Lakeside Park layout will feature 18 concrete tee boxes (donated by McPherson Concrete) with permanent basket placement per hole.

The newest layout design is not final, as the department is still seeking input from local players. Park staff have marked tee and basket locations, so that players can walk the course and get a feel for the changes. Input from the disc golf community is encouraged.

Please email all responses to wayneb@mcpcity.com and laurenp@mcpcity.com
