

PUBLIC MEETING

REGARDING DRAINAGE ISSUES DRY TURKEY CREEK WATERSHED STUDY

Location: 400 E. Kansas, McPherson, KS, Commission Room
Date: Monday, March 4, 2019
Time: 3:00 p.m. and 6:30 p.m.
Facilitator: City of McPherson and Alfred Benesch & Company

The City of McPherson contracted with Alfred Benesch & Company, who is conducting a drainage study of the Dry Turkey Creek Watershed. The purpose and focus of the public meeting will be to discuss drainage issues within the Dry Turkey Creek basin. A map is located on the backside of this flier. We encourage all residents, regardless of where you live, to attend. Drainage issues may affect where you work, where you drive, etc.

The City will conduct a drainage study for the Bull Creek Watershed in the future. At that time, another public meeting will be held to address drainage issues in that basin

Citizens are invited to complete the drainage questionnaire at mcpcity.com. Click on "Drainage Questionnaire" under the "News & Announcements" section to learn more and access the questionnaire.

Early submittal of the form prior to the meeting is encouraged. Please drop forms off at 400 E. Kansas, submit via the website, or bring it to the meeting.
